THE RICH CENTER FOR AUTISM

All proceeds from the 2019 community service donations and the annual golf outing will be donated to The Rich Center for Autism.

Their mission is to improve education experiences and outcomes for individuals with autism and their families through teaching, research and community engagement.

Realizing that autism is a major educational challenge for parents and teachers, the founders established The Rich Center for Autism's goal: to improve the conditions with which children with autism learn to live. By combining current research about autism with the newest and most innovative theories in education, The Rich Center for Autism offers hope that children affected with autism can reach their full potential. Therefore, the primary emphasis is on teaching and research, as well as focusing on intensive training to children with autism.
